PROFESSIONAL SUMMARY

Cloud & DevOps Engineer with 2.5+ years owning production AWS infrastructure across 24 EKS clusters serving 200K+ daily users on enterprise communication platforms. Drove 87% reduction in security compliance findings and cut incident MTTR from hours to under 30 minutes through automated monitoring and alerting.

CERTIFICATIONS

AWS Certified Solutions Architect – Associate	2026
AWS Certified Cloud Practitioner	2025

TECHNICAL SKILLS

Cloud & Infra	AWS (EKS, EC2, VPC, S3, IAM, EFS, RDS, ElastiCache, Route53, CloudFormation)
Containers	Kubernetes, Docker, Helm Charts, Karpenter, HPA, Linkerd Service Mesh
IaC & CI/CD	Ansible, CloudFormation, Terraform, Bash, Python, Jenkins, Git
Monitoring	Splunk, Grafana, Prometheus, OpenTelemetry (Alloy), CloudWatch
Networking	TCP/IP, DNS, TLS/mTLS, VPC Endpoints, GSLB, PCI Compliance
Languages	Java, Spring Boot, Python, SQL

EXPERIENCE

DevOps Engineer — Client: Apple Inc.	Dec 2023 – Present
Cognizant Technology Solutions	Hyderabad, India

Platform Architecture & Infrastructure

- Architected and operated 3 enterprise communication platforms spanning 24 EKS clusters (6 AWS regions) and 100+ EC2 hosts, maintaining 99.9% uptime across all production workloads
- Spearheaded 2 new APAC region buildouts end-to-end — provisioned VPCs, configured IAM via CloudFormation, stood up EKS clusters, and integrated All Services — delivering production-ready infrastructure within 1 week per region
- Implemented Karpenter autoscaler with custom NodePools and HPA policies, reducing idle compute spend by eliminating manual node scaling across 24 clusters

Kubernetes & Application Deployment

- Orchestrated 20+ microservices per cluster via Helm charts with Linkerd service mesh, achieving 99.9% pod availability and zero unplanned downtime during 6 major version upgrades
- Engineered zero-downtime rolling upgrade runbooks coordinating Helm value changes, container image promotions, and EFS content sync — executed across all 24 clusters with zero rollbacks
- Hardened PCI-compliant container security: enforced approved registry whitelisting, TLS-only middleware, and mTLS on all management interfaces — passing all quarterly compliance audits

Monitoring, Alerting & Incident Response

- Built 15+ Splunk dashboards and Grafana panels tracking real-time pod health, session concurrency, and middleware throughput — adopted as primary observability layer by L1/L2 operations team
- Identified silently degraded pods responsible for 23% of platform timeouts using custom per-pod anomaly detection, resolving a systemic issue that had persisted undetected for weeks
- Author production incident SOPs adopted by L1/L2 support, standardizing triage workflows for all alert types across 3 platform components

Infrastructure Automation, CI/CD & Security

- Automated EC2 provisioning via CloudFormation and Terraform (IAM roles, instance profiles, S3 policies), eliminating 2+ hours of manual setup per host across 100+ instances
- Drove quarterly OS and application patching via Ansible across 100+ middleware hosts, reducing open security compliance findings from 150 to 20 (87% reduction)
- Built Jenkins CI/CD pipelines with container image scanning, approval gates, and automated deployment — reducing release cycle from 1 day manual effort to 45 minutes
- Enforced TLS/mTLS across all inter-service communication, covering RabbitMQ, PostgreSQL, Redis, DNS health checks, and certificate lifecycle management

Application Development & Collaboration

- Developed internal APIs using Java and Spring Boot for centralized configuration management, replacing manual processes and saving 5+ hours/week of operational overhead
- Led P1 incident bridges across US, EMEA, and APAC time zones, coordinating vendor engineering, internal dev teams, and L1/L2 support to drive root cause resolution within SLA

EDUCATION

Jawaharlal Nehru Technological University	Jun 2020 – Jul 2023
B.Tech, Computer Science & Engineering CGPA: 7.69 Hyderabad, India	
State Board of Technical Education (SBTET)	Jun 2017 – Jul 2020
Diploma, Mining Engineering 77.83% Hyderabad, India
